

Shoreline High School Cross Country Course

WCAL Girls Records for 2005 - 2009

Mountain View, California

The Shoreline Cross Country Course is located near the Shoreline Amphitheatre in Mountain View California. The course is a 3.0-mile course with moderate rolling hills. The course was first run in a West Catholic Athletic League (WCAL) Meet in October of 2005. Unfortunately, the city of Mountain View covered most of the trail around the golf course (middle mile) with used asphalt the week prior to the race. This resulted in some poor footing during the middle mile (chunks the size of baseball and softballs on the course) which slowed the times considerably. The following years in 2006 through 2008 the course was in excellent condition. In 2007 it was extremely fast.
